

# 1-1 Tutorials (Non-graded)

## Jupyter Notebook

In this course, you will need to complete your programming assignments in Jupyter Notebook. Jupyter Notebook is an open-source software that will allow you to write programs to apply the different concepts you will learn about in this course. Review the Jupyter Notebook in Apporto (Virtual Lab) Tutorial in the Module One Resources to understand how to create, save, and download your work from your Jupyter Notebook.

## Apporto (Virtual Lab)

You will access Jupyter Notebook through SNHU's Virtual Lab, Apporto. Review the tutorials in the Module One Resources for important tips on accessing the Virtual Lab, as well as how to upload and download files. Use the link in the **Virtual Lab Access**
